## Motivation

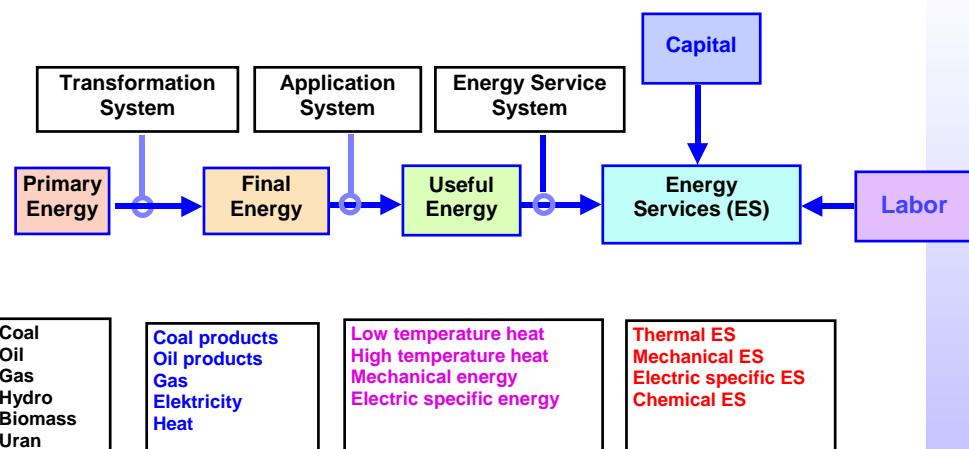

- Comparative analysis of energy systems
  - ↗ Structure
    - Composition of demand and supply
  - ↗ Drivers
    - Relation to economic activity
  - ↗ Key parameters
    - Elasticities and intensities
- Preparation for structural modeling analysis
  - ↗ Energy services
  - ↗ Final energy consumption
  - ↗ Primary energy supply

## Data base

- OECD data from 22 countries
  - ↗ Energy Balances
  - ↗ CO2 Emissions
  - ↗ Economic Outlook
- Organized in XLS
- Standardized fact sheets for each country
